# Resource policy

# Resource policy

It is the policy of the group, that the value of group resources, needs to be retained to the highest degree possible, regardless of composition or state.

Enabling high-value retention is essential to ensure a sustainable business, where no resources are needlessly wasted. Therefore, we strive to replace notions of waste with a notion of resource.

## Policy statements

We will live up to our policy by:

1. Ensuring the recyclability/reusability/circular ability of products, which have reached the end of their initial life or scrap/remains from manufacturing (pre-and-post consumer)
2. Using suppliers that enable the group to improve its performance on the policy purpose
