6 Policy

It is the policy of Eltronic Group that our employees are our most important asset, and their well-being is our top priority.

Our people work with engineering technologies that enable the world of tomorrow to do more with less. We trust people and give them the freedom to act. We will encourage and support personal and professional development and a healthy work-life balance, and we accept diversity in all aspects and do not accept any kind of discrimination. We do not accept any corrupt behaviour or any other unethical behaviour, legal or illegal.

We believe that the interaction between employees and management should be characterised by tolerance, respect and fairness towards one another. All employees' individual personality must be respected. Employee well-being is measured through an anonymised survey once a year to ensure a great working environment and to identify any issues related to declining employee satisfaction. The results of the surveys are being discussed by the relevant management teams.

6.1 Policy Statements

We will live up to our policy by:

- Guiding our employees with an employee code of conduct and meeting the standards of UN conventions and guiding principles.

- Providing a working environment where people are treated fairly and can be successful in their life journey.
- Continuing to learn and value expertise, curiosity, and ambitions.
- Conducting, at least, annually employee performance reviews with management, during which their work life, development, and well-being are discussed.
- Performing a yearly anonymized employee satisfaction survey.

6.2 Policy Targets

We will live up to our policy by:

- Reaching an employee satisfaction score of 75% or higher every year.
- Achieve a gender balance of at least 25% women in management positions in 2030.
